

# hl 3/8/10

The Scanhugger HL 3/8/10 is an all-round shredder, capable of shredding all types of woodwaste (solid wood, particleboard, MDF, cardboard, paper) depending on the material to be processed and the desired chip quality, the machine can be mounted with different screen sizes.

Scanhugger HL 3/8/10 er en all-round træknuser, der er velegnet til knusning af alle typer træaffald (massivt træ, spånplade, MDF, pap, papir, kartonageaffald). Afhængig af materialetype og ønsket flisstørrelse kan maskinen monteres med forskellige soldperforeringer til henholdsvis fine/grove flistyper.

### Technical data / Tekniske data.

Hopper dimension / Magasinmål		825 x 1007 mm
Hopper volume / Magasinindhold		0,8 cbm
Rotor diameter / Rotor diameter		Ø 240 mm
No. of knives / Knivantal	*	24
No. of counterknives / Antal modstål		2
Rotor speed / Rotoromdrejninger	**	80 - 100 <sup>-1</sup>
Main motor / Hovedmotor	**	15 - 18.5 kW
Screen perforation / Soldperforering	**	15 - 40 mm
Chip length / Flislængde	**	20 - 40 mm
Capacity / Kapacitet	**	150-480kg/60min
Weight / Vægt		1500 kg
Sound level / Lydtrykniveau L <sub>pa</sub>	***	81 dB

\* Depending on rotor and type of knife

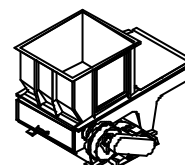

\*\* Depending on motor size, material and screen perforation

\*\*\* In accordance with ISO/DIS 11204, prEN 691
